

Writing Boxes

Writing Boxes help children practice pre-writing strokes before letters and numbers.

All writing is built from:

lines · curves · circles · dashes

How to use

- Start with **Writing Boxes — Large**
- Move to **Medium**, then **Small**, as control improves

Practice one stroke at a time.

Focus on movement, not neatness.

To make this easier, I've created a short YouTube video showing how to use this template and teach your little one. You can check it out [here](#)

There is no rush. Stay where your child is comfortable.
